

Auf Wiedersehen, good bye und au revoir

A chapter in the story of Infanterix multilingual nurseries and kindergartens is now coming to an end for me. At my own request and in close coordination with the management and our French partners, I will step down from the management and as a shareholder of Infanterix multilingual nurseries and kindergartens on June 30, 2021.

I look back on the last years with satisfaction and pride. It is not easy for me to say goodbye, because I am not only the managing director and shareholder of Infanterix, but also the founder. Over the past 15 years, Infanterix has developed from the idea of multilingual childcare for my own children to one of the leading providers of multilingual nurseries and kindergartens in and around Munich. Together with my educational management team, we designed various options for professional, multilingual childcare and have recently expanded the company beyond the borders of the greater Munich area.

I would like to take this opportunity to thank everyone who has contributed to making Infanterix what it is today. All this was only possible with the extremely trustful cooperation, the sense of partnership, the support and the commitment of everyone involved.

As many of you know, I always like to take up new challenges. That is why I will be focusing on a few new projects in the near future.

Saying goodbye will be a bit easier for me knowing that I am leaving Infanterix in good hands. The management will now be taken over by Annett Nkaira-Hess. She has been with the company since 2009, first as Head of Education and since January 2018 at my side as Managing Director. I am sure that Annett will continue to keep Infanterix on the successful course that we have taken together in recent years.

So it is now with a laughing and a crying eye that I say "auf Wiedersehen, good bye and au revoir". I look forward to what is yet to come and wish Infanterix and its entire team all the best for the future.

Sincerely

Benjamin Tajedini
